An Official Statement. An official statement has been issued in An official statement has been issued in Madrid showing the numbers of men and the quantities of munitions of war seat to Cuba and the Philippine Islands dur-ing the insurrections which are in progress in those quarters. Between November, 1895, and May 1897, the Spanish Govern-ment sent to Cuba 181,738 soldiers and 6,261 officers, of whom forty were gen-erals; 212,542 guns, 320,406 kilogrammes of powder, 92,088,670 enriridges, 16,712 swords, 91 cannons, 12 mitralicuses and 20,500 shells. Since the outbreaksof the present tevolution in the Philippines the government has sent 27,650 soldiers and 881 officers, of whom 9 were generals; 43,-100 guns, 24 cannons, 24,910 kilogrammes of powder, 21,726,585 cartridges and 30,-

SHORTAGE OF RUSSIAN WHEAT.

Bo Small Is the Crop that There Will Be None for Export. But little wheat will be shipped from Russia during the season of 1897-98 for the simple reason that there is little avail-able for export. The failure of the wheat crops in Austro-Hungary, Roumania and Bulgaria has brought buyers into Russia from those countries and the wheat will go to them by rail. How much of this wheat Russia can afford to let go is a question now being discussed. While ints are thrown out that the export of cereals may be altogether prohibited, it is believed these have no foundation and that the Russian Government will never again make the mistake it did in the famine year of prohibiting exports,

tarding of the Clubs Following is the standing of the clubs of the National Baseball League:

The showing of the members of the Western League is summarized below: W. L. W. L.

most scientifically constructed, easy running and highly Seventy Drowned at Flume. finished bicycle in existence. Upon their judgment a

A special dispatch from Vienna says that seventy persons were drowned as a result of the collision at Fiume between the steamer Ika, a local passenger vessel, and the British steamer Tiria, which was eaving that port as the Ika was entering The latter sunk in two minutes, and in full view of thousands of people who crowded to the piers.

> Heath's Prediction. Assistant Postmaster General

Perry 8. Heath is spending a week at his home in Mancie, Ind., with his parents and with Mrs. Heath. In an interview that the understanding between looking to more coinage of silver is still

Great Surgicul Operation. A wonderful surgical operation has been performed by Drs. Parsons and Mc Caughan of the Children's Hospital at St. Louis upon 9-year-old Lillie Stamenius. They constructed for her a palate and a nose and upper lip. Her face was deformed and the surgeons saw but one way to remedy it; that was an operation,

Arrested a Dangerous Crank. Joseph Bloomfeld Jackson, a dangerous crank from Meriden, Conn., was arrested at the door of the White House in Washington after an unsuccessful effort to en-ter the executive mansion. Jackson was heavily armed, and has made mysterious boasts as to what he was going to do to a high official of the government.

Wealth Coming West.

Money continues to be ordered from the banks and the sub-treasury in New York to pay the wheat growers of the South and West. The sub-treasury has received orders to ship \$275,000 in cur-rency to the South and the Northwest. The money will be sent from Washington. The banks sent about \$1,000,000.

Will Wait Until Spring. The steamer Queen, from Alaska, brought back eighty miners to Victoria, B. C., who decided to wait until the spring before proceeding to the Klondike. Winter has set in in earnest in the White and Chilkoot passes, there being four feet of

snow on the summits, and ice is forming in the small streams. Peary in Port. Lieut. Peary and his party have reached Sydney, B. C., from North Greenland on board the bark Hope, All on board are well. The Hope will coal there and then proceed to New York, where she will land the huge Cape York meteorite.

Election in Cuba.

According to advices from Puerto Prin-cipe, Bartolome Macco has been elected vice president of the Cuban republic, Gen. Maximo Gomez minister of war and Cafixto Garcia has been appointed major general, Gen. Gomez remaining commander in chief of the army of liberation.

German Torpedo Boat Sinks. Torpedo boat No. 26 has capsized and sunk near the first lightship off Cuxhaven. Eight of her crew, including her com-mander, Duke Frederick William of Mecklenburg-Schwerin, were drowned.

The bad barvest affects seventeen Russian provinces and it is feared it will also be felt in 1898, as the drought has prevented sowing winter wheat in a large area. The hamense reserve stocks will prevent a famine, but the peasants are ruined for several years.

Personts 're fluined.

\$50,000 for Each Life. The Austrian consul at Philadetokia has written to his secretary in Hualeton Pa., Dr. Theodorovitch. Legal proceedings, the communication says, will be instituted against the United States in \$50,-600 damages for each life lost in the Lat-

Swoop Down on Working Miners with Sticks and Cinbs.

Friday at Hazleton, Pa., opened with commotion at the headquarters of the Third Brigade and in the various camps. At an early hour a message reached General Gobin that there was more trouble at Audenreid. The attack made by the women Thursday, which resulted in driving the miners at those collieries out, was repeated when another attempt to start ing the miners at those collieries out, was repeated when another attempt to start up the collieries was made Friday. Over one hundred men reported for work at the Monarch washery, when the band of amazons, armed with sticks and stones, awooped down upon them. Some of their number again stationed themselves on top of a culm bank, ready to pelt the men, but violence was avoided by the men promptly going out. At the Star washery about one hundred of the 135 men returned to work, but the women determined to drive them out. No attempt was made to resume at the Carson determined to drive them out. No attempt was made to resume at the Carson washery. As soon as the reports of the disturbance reached General Gobin he sent a squad of the Governor's Troop to the scene. When the cavalry reached there all attempts of violence had ceased, but the women followed the troops about the street, hooting and cursing them. A storekeeper at Audenreid declared that his entire stock of revolvers had been sold during the last few days. Reports from Cranberry confirmed the news that the powder-house of Edward Tuenbach had been broken into by strikers, who had stolen a quantity of dynamite.

BIG COMBINE OF BAKERS,

Three Large Concerns Enter th

Three Large Concerns Enter the Strong Combintion.

A gigantle bakery combination is said to be among the probabilities of the near future. The consolidation, if carried out on the lines reported, will include the three great companies, which now virtually control the situation in their respective territories—the American Biscuit Company, the New York Biscuit Company, and the United States Biscuit corporation. The capital stock will be \$30,000,000 and the bonded indebtedness \$5,000,000. The corporations mentioned operate some 150 of the largest bakeries in the world, the American having its territory in the West, the New York in the Middle section, and in the East, and the United States in the Southern-Middle States. A few days ago it became apparent that something was up in the world of biscuits and buns. Stock of the New York company made a sharp gain to \$55, and Wednesday touched \$00, reling Thursday at \$63 a share. There were large buying orders from the very bost financial interests, and while there was no confirmation of the rumored consolidation, brokers on the exchange gave it more than credence. The companies have dation, brokers on the exchange gave it more than credence. The companies have all been losing money through the slash-ing of prices, and the stockholders in the great corporations have demanded a ces sation of the war.

FORGETFULNESS KILLS FIVE.

Wreck Fald to He Due to an Engineer's Five killed, three injured and one nar-row escape is the result of a head-end col-lision on the Wisconsin Central Railway

lision on the Wisconsin Central Railway between two freight trains at Howard, Wis. The freights were Nos. 21, west bound, loaded with general merchandise, and 24, east bound, loaded chiefly with flour from Minneapolis. Ten cars of freight, together with both locomotives, were derailed and ditched and more or less damaged. The track was soon cleared of debris and no through trains were delayed. The west-bound freight, No. 21, was delayed somewhat and passed Irvine considerably behind time. It is supposed that the engineer, being behind, forgot that he was to pass No. 24 near that point and was consequently running through at the usual speed. No telegraph orders were involved, as both trains were orders were involved, as both trains were regulars and trainmen had standing or-ders regarding the passing. Charles Horn, conductor of No. 21, claims that he before the scheduled time of No 24. Train No. 24 had the right of way and was in charge of Conductor Washington, of Min-

BUYS 15,000 ACRES OF COAL LAND.

Illinois Central Makes a Big Purchase in Alabama.

The Illinois Central Railroad, through its agents, has purchased 15,000 acres of coal lands in Marion and Walker Counties, Alabama, and will open mines upon them at once for the purpose of obtaining coal to supply the road with fuel. The lands are located on the line of the Kansas City, Memphis and Birmingham Railsas City, Memphis and Birmingham Rail-road, about ninety-five miles from Holly Springs, Miss., where that road inter-cepts the Illinois Central, and on them is

a vein of coal from three to four feet thick. The deal involves about \$100,000.

Were Idle Sixty-five Days.

After nearly three months' idleness between 15,000 and 18,000 miners in the Pittsburg district returned to work Thursday in accordance with the action taken at Wednesday's convention authorising the man accordance with all the man accordance with the statement of the izing the men to resume work in all the mines complying with the provisions of the scale of 65 cents adopted at Columbus. The remainder of the 23,000 miners of the district will be at work som. It of the district will be at work som. It is estimated that the strike, which lasted sixty-five working days, cost the people of the Pittsburg district from \$5,000,000 to \$7,000,000. Of this amount the miners lost about \$2,250,000 in wages. The strike against the De Armits will continue indefinitely, arrangements having been made to assess the working miners 5 per cent. of their wages to defray the expenses of keeping up the fight until the 65-cent rate is made uniform throughout the district. Originating as it did in the petty disagreement between the Lehigh and Wilkesbarre Company mule drivers and their employers, and having spread and their employers, and having spread until it now affects nearly 10,000 men and most of the principal operators of the middle coal fields, this strike has been middle coal fields, this strike has been one of the most peculiar ever inaugurated in the region. The miners have no organization. In many instances they do not know exactly for what they struck, except that they feel that they have been unfairly treated and that they want more pay. In 50 per cent of the idle collieries they are at a loss to say how much they want, and in such cases they have quit work without even asking for an increase. work without even asking for an increase.

Recall of Baron Fava Verifict. The cablegram announcing the recall of Baron Fava, the Italian ambassador to the United States, has been verified. He is to be retired from active service, and the Italian Government has granted him pension of 30,000 lire per annum.

Argentina Has Wheat, In spite of the locust plague the Argen-tine wheat crop with good luck will be so great that nearly 2,000,000 tons will be exported. The locusts are doing a little harm in the provinces of Santa Fe and the southern part of Cordera.

Can't Change Color. Secretary Gage's order that postage stamps shall hereafter be green, met with sudden death upon the discovery that the rules of the International Postal Congress forbid any change in the color of the stamps.

Moonshiners Nonplused.

J. W. Wooten, a United States Ceputy marshal, of Breathirt County, was sho at and struck a dozen times in an en-counter with moonshiners on top of Jackson Mountain. Wooten stood still as a rock while the leaden storm poured upon

him, and when two moonshiners had exrushed forward and captured them, sin-gle handed. Wooten is the first man in the county to introduce a steel shirt of mail as a protection from the bullets of moonshiners. He came through the fight with scarcely a mark upon him. He stood within 50 yards of the men who were firing at him, and took the desperate chance that their aim would be so good that they would not miss his chest. The two moonshiners were amazed, and thinktwo moonshiners were amazed, and thinking there was some supernatural protection to Wooten, dropped their guns at the word of command and were easily captured. Wooten's undershirt is made of small steel rings overlapping each other, something on the order of the feathers on a bird. It is three-ply, the rings being adjusted so that the garment is flexible, and yet the steel wire of which the rings are composed resisted the impact of a 44-caliber bullet fired from a rifle at a distance of 50 yards. distance of 50 yards.

FAR WORSE THAN SLAVES.

Mine Operator Deviln Sides with the

Mine Operator Devlin Sides with the
Hilinols Miners.

Charles J. Devlin, one of the largest
coal mine operators in the United States,
says he will not countenance a further
reduction in the wages of Illinois miners.
Mr. Devlin claims to have reliable information that Illinois operators will endeavor to reduce the scale below the Columbus agreement. Says Mr. Devlin:
"The miners of Illinois should get a price
equal to the Columbus scale. The price
which they were forced to accept last
May and which they refused to continue
work on is not enough to keep body and
soul together. The average miner with
steady work can not earn more than \$1
per day the year around. Slavery for the
miners would be preferable to the wages
they were getting, for in slavery they
would get enough to eat and drink and
wear, while under present conditions and
prices they are forced to work for they
can not buy provisions enough, let alone
elathe themselves and formilles Sings can not buy provisions enough, let alone clothe themselves and families. Since they came out the prices of provisions have advanced, particularly flour, to not less than \$1 per 100." Mr. Devlin says the cause of the miners is a just one.

PENSION DEFICIT DECREASED.

Estimated Excess of Expenditures Will Not 1 xceed \$7,000,000. "While the expenditures for pensions may exceed the appropriation for the current fiscal year, the deficit will not be so great as the payment of \$40,000,000 for the quarter ending this month would indi-cate," said Commissioner of Pensions Evans, "I estimate that the total pay-Evans. "I estimate that the total payments for the year will not exceed \$147,500,000. That is not an appalling excess by any means, the appropriation for the year being \$141,263,880. There are something like 200,000 old claims pending before the bureau, which will be acted upon as rapidly as we can get to them. There has been and still continues a remarkable increase is the number of new markable increase in the number of new applications."

Now Lustgert's Turn. The prosecution has closed its case against Adolph L. Luetgert, on trial in Chicago for wife murder. All the State has to say in proof that Mrs. Luetgert was murdered in the sausage factory the night of May 1 and that her husband was the murderer has been said. The defease moved for acquittal, on the ground that the corpus delicti has not been established; that it has not been proved that Mrs. Luctgert has been murdered, or that Mrs. Luetgert has been murdered, or that she is even dead, and, therefore, no crime of murder has been proved. That motion was overruled, and the plans of defease will be revealed as its testimony is adduced. The thory that a woman's body was destroyed in the vat as alleged will be attacked by expert testimony, the identification of the bones will be assailed and it may be the defense will produce witnesses who will swear they saw the woman ally e since midnight of May 1. It woman alive since midnight of May 1. It will be sufficient for the defense to raise a doubt over the proof offered by the State. Attorneys Vincent and Phale say they have a complete defense.

Lynchers Not Known.
"The slayers of the men are unknown." This is the concluding sentence of the verdict of the coroner's jury which investigated the lynching of the five men at Versailles. Ind. The verdict pleases those who justify the hanging of the quintet. On the other hand, threats have been made are currently experted to have been made-or currently reported to have been made-by friends of the victims to have blood for blood.

Buried in Wheat.

Glasgow authorities are making a vig-orous examination regarding the finding of the body of a young man buried in the grain on board the steamship Tower Hill, which arrived from New York.

Christians Are Personated. Word has been received that the Cath-olic missionaries are again suffering severe oppression from the Chinese near Yno-Ping, in the district of Kwang-Tung.

Reports received at the Denver weather bureau indicate a general snowfall in the mountains. The snow is several inches deep at Cripple Creek and at Central City.

Rev. William H. Hinshaw has been re-turned to his old place at the Indiana State prison. He returns satisfied that the case will not be reopened.
